About Guinea

Guinea is a country in West Africa, bordered on the west by the Atlantic Ocean.

The capital city, Conakry, is home to the modern Grand Mosque and the National Museum, with its regional artifacts.

Guinea’s mineral wealth makes it potentially one of Africa's richest countries, but its people are among the poorest in West Africa.

EXCLUSIVE GUIDED TOUR

MindLeaps invites you on an exclusive one-week guided tour for a small group of up to eight people. You will meet our children who are working to transform their lives and now succeed in school. The tour includes travel around Conakry, visits to MindLeaps’ programs, and private meetings with NGOs, government officials and local entrepreneurs.

Who will you meet?

MindLeaps works with vulnerable youth living in extreme poverty. The youth change their mindset of survival and learn skills that are in demand in Guinea’s labor force. This opens the way to employment and self-sufficiency. After completing MindLeaps program, the students are sponsored to join formal education. You will meet youth who are at every stage of this life-changing journey. Through doing so, you learn about Guinea and the fight against poverty.

Working with Carnegie Mellon University Rwanda and Drexel University, MindLeaps has developed an analytical tool to measure the change in 7 cognitive and non-cognitive skills in vulnerable children through the MindLeaps’ dance curriculum. These skills are considered critical for success in a formal classroom setting. Below is a typical graph showing the average change in these 7 skills in a class of 15 students over 20 weeks in the program. The seven skills measured on a scale of 1 to 7: memorization, language, grit, self-esteem, creativity & self-expression, discipline and teamwork & collaboration. www.mindleaps.org/research
